I am a passionate Front-End developer with a solid background in building modern, high-performance web applications. I specialize in crafting intuitive user interfaces that prioritize usability and accessibility while ensuring optimal functionality. My expertise in code and scalable design patterns allows me to deliver effective digital experiences. I thrive in collaborative environments, continuously improving performance and usability through innovative solutions.

EXPERIENCE

Freelancer   **San José, Costa Rica**
Full Stack   *May 2024 - Sept 2024*

- **Project management:** I developed my own work area and methodology that allowed me to divide tasks and manage the project more easily.
- **Interface design:** Creation of a visual prototype in figma that facilitated the development of the project, considering design principles and mobile responsiveness.
- **Interface development:** Created using technologies such as Next.js, React, SASS, and MongoDB, providing an enhanced user experience.

Centro de Tecnología Y Artes Visuales, CETAV   **San José, Costa Rica**
Front-End Developer   *Sept 2023–Dec 2023*

- **Project Management**: Was part of the team for the full development and deployment of the CETAV website, worked closely with a team to ensure timely delivery and project objectives.
- **Interface development:** Created responsive and visually appealing interfaces, using technologies such as Next.js, React and ChakraUI, offering a good user experience and good website optimization.
- **Design Conversion:** From Figma to code with precision, ensuring design fidelity and consistency across all devices.

EDUCATION
